

TOTAL O/HANG
PER SIDE BASED
ON OUR STANDARD
FRAME LAYOUT.

Please note that the
fascia's of the 1500
& 3400 bows do not
match the rest of the
range.

BEFORE FIXING WHY NOT
FILL WITH ROCKSIL ?

MAX EXTENT
OF FRAMES

We now offer an
optional foam
filling service,
please refer to
our price list for
details.

IMPORTANT

When receiving deliveries of bow-canopies particularly when delivery has been via a national carrier it is vital that the canopy should be removed from the box and thoroughly inspected before any paperwork is signed. Apart from obvious damage also check that there are no hairline cracks between the dome and the bottom of the upstand, you will only be able to see these by gently flexing the upstand but they will become visible once they are dirty if the canopy is fitted.

Bow Type	N	P	Q	R	S	T	V	W	X	Y	Z
1500	1984	297	55	75	220	90	290	1705	305	190	595
